

UNIVERSAL SWITCH AND SOCKET BOXES

Complete with knockouts for both 20mm conduit and mini trunking (25 x 16mm)

Switch and socket boxes can be used for a variety of installation requirements thanks to handy knockouts for both conduit and mini trunking

- Various entry point options - left, right or centre
 - Single gang boxes feature one knockout for mini trunking and one for conduit
 - Twin gang boxes feature three knockouts for mini trunking and three for conduit
- Less variations to store and manage
