## **TCR2 Product Data Sheet**

| Product Range                | Mini Trunking Systems                                 |
|------------------------------|---|
| Description                  | Ceiling Rose Adaptor                                  |
| Key Features                 | 2x KO for MMT1  |
|                              | 2x KO for MMT2  |
|                              | Designed to accept all popular makes of ceiling rose. |
|                              | Supplied with fixing screws                           |
| Dimensions                   | Ø81mm x 16mm [internal depth of 12mm]                 |
|                              | Fixing centres 50.8mm                                 |
| Material(s)                  | PVC-U   |
| Compliance /<br>Standards(s) | CE & UKCA Marked                                      |
|                              | Low Voltage Directive 2014/35/EU                      |
|                              | The Electrical Equipment (Safety) Regulations 2016    |
|                              | BS 7671:2018  |
|                              | BS 67:1987  |
|                              | BS EN 50085-1:2005+A1:2013                            |
|                              | BS EN 50085-2-1:2006+A1:2011                          |
| Packaging                    | Recyclable  |

## Sustainability

We work hard to ensure our products meet the highest standards and are totally committed to the environment and maximising our usage of recycled material within our manufacturing process.

Our white extruded Mini Trunking PVC-U products are manufactured from a minimum of 80% recycled material and up to 100% recycled content, depending on material availability.

This range is manufactured from PVC-U, a material that is 100% recyclable, is flame retardant and self-extinguishing.
