Sustainability

We work hard to ensure our products meet the highest standards and are totally committed to the environment and maximising our usage of recycled material within our manufacturing process.

Our white extruded Mini Trunking PVC-U products are manufactured from a minimum of 80% recycled material and up to 100% recycled content, depending on material availability.

This range is manufactured from PVC-U, a material that is 100% recyclable, is flame retardant and self-extinguishing.
