Sustainability

We work hard to ensure our products meet the highest standards and are totally committed to the environment and maximising our usage of recycled material within our manufacturing process.

Our extruded PVC-U products are manufactured from combination of recycled PVC-U and virgin PVC-U with some base products produced from 100% recycled material.

This range is manufactured from virgin BIO PVC-U, a material that is 100% recyclable, is flame retardant and self-extinguishing.
