

# LINIAN CABLE TRAY CLIPS

**Fast, safe compliant clips for use with Metal Cable Tray**

**Now available from Marshall-Tufflex**

**Linian Cable Tray Clips** offer a faster, safer, and fully compliant alternative to traditional fixing methods such as cable ties, screws, or metal straps.

Traditional plastic ties can fail in a fire — **Linian Cable Tray Clips** maintain their hold under extreme heat, making them ideal for fire-safety-critical installations.

The clip locks in by hand with no tools required, cutting installation time.

- Galvanised steel construction
- Meets Regulation 521.11.201 of BS 7671:2008+A3:2015
